CONTROL PANELS

Rainbow offers various generator set control panels to monitor the engine and generator performance. All control panels, whether digital or analog, are equipped with safety shut-downs for engine monitoring. Control panels options include Frequency Meter, Ammeter, Voltmeter, Alarms and Faults for Oil Pressure, Water Temperature, Overcrank, Overspeed, Hourmeter, Tachometer, and Water and Oil Level Sight Gauges.

Open Unit

Galvanized Hood

Aluminum Sound Enclosure

Double Door Weather Enclosure

Double Door Sound Enclosure

Standard Cabinet Enclosure

Cabinet Enclosures are designed to protect your investment from the elements. Rainbow offers either open units to go inside a building or under a shed, or engine hoods and front radiator grill guards, or weatherproof and sound attenuated units to reduce decibel levels and offer the most protection.
